VOLUME XXXIII. NO. 39

CROSSFIELD, ALBERTA, CANADA, THURSDAY, AUGUST 24, 1939

5 CENTS A COPY

## Eight Pages of Reading Matter Less Than Two Cents Per Week

### Crossfield Chronicle Changes Sub. Rate

#### INCREASED CIRCULATION

Some years ago the Crossfield Chronicle subscription rate was a dollar per year, and then raised to a dollar and fifty cents. Since changing to an all-home-print paper, it is possible to again lower the rates, making it the original dollar.

Advertisers now reach more readers, the Chronicle is bigger and better than ever, and has become a paper read by everyone.

The publishers take pleasure in announcing the reduced rate, and hope that, with the combined efforts of the advertisers, who are the means of support of this paper, the readers will co-operate in sending in their dollar. A receipt will be forwarded immediately, and new subscribers will be placed on the mailing list promptly.

We regret that the past few weeks have been such that we were unable to publish the regular eight pages, as we would much rather have done, but we trust that as the fall business continues and increases they will be maintained and the advertisers will benefit.

On another page you will find a coupon, which, when forwarded to us with a dollar bill, entitles the sender to a year's subscription to the Crossfield Chronicle. Those in arrears are asked to kindly co-operate, and those paid in advance will receive receipts covering the difference of fifty cents. Thanks

#### Floral U.F.W.A. Activities

The recent "Grandmothers' Day" held at the home of Mrs. R. Bills was very well attended by members, Grandmothers and a large number of visitors. After a short business meeting and programme the Committee in charge served a very attractive lunch. Prizes were awarded to the following:

Grandmother having lived

#### Social Creditors Gather At Mrs. Cowling's

Although only a few were present at the gathering at the home of Mrs. P. C. Cowling Tuesday evening, to listen to the radio broadcast of Premier Aberhart, a very enjoyable time was spent. After the broadcast, a dainty lunch was served by the hostess, with the assistance of the other ladies present, and, when the remainder of the evening was spent in various discussions, all wended their way homeward, satisfied with a good evening's entertainment.

#### ANGLICAN CHURCH NOTES.

The Anglican Congregational Picnic will be held on Wednesday, August 30th. If cars are available it will be held at Bowness Park, if not then it will be held in the local park. Please let the Rector know by Monday the 28th, what cars are available for transportation.

The annual A.Y.P.A. conference will be held in Calgary from September 2nd to 4th. For further particulars see Rector or the local secretary.

Next services at Crossfield, September 4th, 8:00 a.m. Holy Communion 7:30 p.m. Evensong

The living rooms above the old brick garage are now occupied.

longest in Alberta—Mrs. Smith of Crossfield. Mrs. Smith came to this Province in 1900.

Grandmother having the largest number of Granddaughters—Mrs. Jas. Laut. Sr.

Youngest Grandmother—Mrs. A. Sackett.

Prizes for eating the most 4½ pickles was awarded to Mrs. C. Ferguson. (The dolls were awfully good.)

A large crowd attended the Lawn Party held by the Local at the home of Mrs. Wm. Thompson, Wednesday, August 16. After admiring Mrs. Thompson's beautiful garden young and old alike enjoyed a most sumptuous supper.

#### C.P.R. Officials Meet Village Councillors

Messrs. Larson and Harris, Road Master and Edgineer, of the Calgary Division, respectively, of the Canadian Pacific Railway Company, met the Village council Tuesday to check up the approach leading to the stock yards on the south side of the village, off the new grade which leads to town. It was found that the approach to be built will not be on C.P.R. property, therefore will make it much less difficult for the council to build.

#### UNITED CHURCH NOTES.

Mr. and Mrs. Hunt and family have been enjoying their holiday at Revelstoke, which is a beautiful residential city, with many interesting scenic trips within easy reach. They left for home on Monday and are due to arrive in time for Mr. Hunt to take the services for August 27th at Rodney, Tan-y-Bryn and Crossfield

#### Prosperous Farm Community Is Aim Of Line Elevators

#### Identity of Interest Exists Between Farm And Elevator

The interest of the Line Elevator Company in the farmer goes much beyond the handling of his grain. The North-West Grain Dealers' Association, some years ago, organized a Public Relations Department under the direction of L. W. Brockington, K.C., one of Canada's outstanding public men. This department has been dedicated to protecting and promoting the interests of its farmer customers.

Much important work has been undertaken by Line Elevators. This includes: advocating continuation of the Wheat Board and the 80-cent price; undertaking a survey of research into industrial utilization of farm products in the United States; advocating establishment of a Western division of the National Research Council to

(continued on page seven)  
See—LINE ELEVATORS

#### Citizen of Village of Crossfield Reviews, Urges Continued Support

#### Rebekahs and Oddfellows Memorial Service

The Rebekah and Oddfellow Lodges are holding their Memorial Service on Sunday, August 27th, meeting at the Masonic Hall at 3:00 o'clock p.m., then proceeding to the cemetery, where the decoration of the graves of departed members will take place.

Any who care to observe this ceremony are invited to attend.

#### School Fair

#### September 7th

The holidays will soon be over and the next thing will be the "SCHOOL FAIR." All work should have been completed before the holidays, but there will still be a day or two to put the finishing touches to anything that needs it. As stated before, a new ruling is that it takes 50 points to win the short-course scholarship at the Olds School of Agriculture. To determine these points first prize counts three, second is two and third is one.

Tugs will be given by the teachers hands by the first day of school and all entries should be tagged and be at the Fair grounds not later than 10:30, September 7th.

New teachers would do well to get in touch with the secretary for any information they may need. This can be done by phoning R503.

In regards to taking articles home in case any have to leave early, make arrangements with someone else, to bring yours home, as this year nothing will be moved until 5:00 p.m., as will be seen from the prize list. A good assortment of prizes are being awarded, but the cash prizes may be a little lower, as under the new set-up of Large School Units, the fee has been reduced.

To make up this deficit, the secretary will be glad to receive a few more cash donations, which will be announced in the Crossfield Chronicle.

(continued on page eight)  
See— SCHOOL FAIR

#### Compliments Councillors on Efficient Operating

#### SATISFACTORY BRIGADE

It may be a good time now, when the Village taxes are being mailed to all property owners and those doing business in the Village, to remind our citizens of the responsibilities of our council for which they receive no remuneration and very little thanks from their fellowcitizens for the services rendered year after year.

The revenue received to carry on Public Improvements, such as streets, sidewalks, park and cemetery, come from the taxes paid each year.

If the current taxes were paid 100 percent each year the amount collected would be \$4000.00; so that it is easily seen that the councillors have to be very careful in their budgeting as there is much to be done, but little money with which to do it.

In looking over the work done this summer and the improvements carried out, we, as citizens should have little to criticize. The merchants may feel that the main street should have been oiled, but the council is not to be held altogether responsible for not carrying this out.

Arrangements were made earlier in the year to have the oiling done, but with so much rain in June and the Village not being in a position to scarpify the streets as required before oiling, this matter was passed up.

Apart from this many improvements which have been under consideration for some years have been carried out. The high grading of the south road from the highway into Crossfield is something done which many citizens have been agitated for in recent years, for in the winter months this approach was always more or less drifted with snow and has been an expensive road to keep in repair. With a good layer of gravel next year it will be a credit to the Village.

## Chronicle Changes Subscription Rate

Changing our subscription rate from a dollar and fifty cents to an even dollar per year, will be of mutual benefit, and should assist our subscribers in keeping paid-up, which, after all, is very important

It has been with regret that no more than four pages could be published the past few weeks, but we trust that our advertisers will continue to help maintain the regular eight pages. It is our earnest wish to publish a paper worthy of support and solicit our kind friends and supporters patronage in so doing.

We extend our sincere thanks to our readers for bearing with us during the summer months and hope to satisfy them with the regular eight pages and plenty of news and views in the weeks to come.

## School Re-Opens September 5th

Once again we come to the close of the summer holidays and the time when the streets will look and feel more or less deserted, as the children march off to school, where they advance in the knowledge which will help them in the days to come, when they become the leaders and rulers of tomorrow.

We hope the past two months have meant much to the students, who were in need of rest, after the work at school, and will again be able to settle down and accomplish that which is before them.

## School Fair and Calf Club Annual Event September 7.

The two events of the season for those school children in the agricultural field are again close at hand. The School Fair with its many exhibits, proving to the grown-ups that agriculture is for the younger ones as well, and that success can and will be met later by the efforts expended now.

Although it means work and time for the teachers, judges and leaders, the time spent in making life living for, for the young folks will be of mutual benefit when the present generation nears its close.

The School Fairs have been an important feature in the development of a wholesome rural life amongst the boys and girls of our province. The measure of the permanent success of the activities of any such organization as this, will depend upon the extent of the co-operation and the proper competitive spirit that it receives from its participants.

The Calf Club is another organization to extend to the boys and girls the knowledge of cattle-raising by the best and most interesting methods, thus preparing them fully for the altitude which may be attained.

## Around Field And Barn.

By E. M. C.

I recently heard the remark that most of the poor crops seen in parts of the district (and other districts) are due to poor farming more than to drought or hail. There is a good deal of truth in that observation, for when you see a good crop or a good summerfallow one side of a road and a poor crop on the other, common sense will tell you that something more than weather conditions is responsible.

Lack of suitable equipment does not explain the difference. Modern agriculture implements make it possible to get the work done quickly and on a larger scale, but not necessarily better.

Because we know that some of the poor looking fields were "farmed" with modern equipment, good work at the right time, the right crop in the right place, has more influence than modern machinery, which we have not always had, and some good farmers do not have yet. Actually, with the wonderful improvement in cultural implements, there is no excuse for poor farming practices.

Of course the matter cannot be so easily dismissed. There are a number of reasons to be taken into consideration in individual cases, but in the main the fact remains that old man weather is blamed for a whole lot that he is not responsible for. Any complaints.

### Dust On Main Streets Serious Problem

Without doubt the gravel which has been placed on the main street of Olds has added considerably to the structure of the road but merchants are having probably the worst time in the past three years trying to keep their stores clean, due to the sifting clay dust which rises with every car that passes.

Twice and three times a day merchants are forced to dust off their products in order to make them presentable for the customers.—Olds Gazette

### Steps Taken to Form Irrigation District South of Town

At a meeting of farmers held in the town hall on Tuesday afternoon it was unanimously decided to take immediate steps to form an irrigation district under the Prairie Farms Rehabilitation Act, in which it is proposed to place about 10,000 acres under irrigation. A provisional executive committee was elected and will take immediate steps to secure the required number of signatures on a petition which is required under the provincial act regulating the formation of irrigation districts.—Macleod Gazette

### Street Oiling

Favourable comments are heard on every hand regarding the City's street-oiling program, and added to the comments one often hears, "I wish they would oil our street next," or "Why can't they oil every street and avenue in town?" The City has appropriated a certain amount for oiling streets in its 1939 budget, and it must be agreed upon that what has already been done, has been of great benefit. Businessmen particularly remark of the lessening of the dust menace in their stores and offices, which will undoubtedly mean that less of their stock will be ruined. The type of oil used in this year's oiling experiment is of a different substance to that used last year. That which was spread in the business section in 1938 had a wax base, while the present oiling contains a tar base, which tends to bind the dust into an asphalt surface. Here's hoping the area will be increased next year.

### LETTERS TO THE EDITOR

As an act of courtesy "Letters to the Editor" are published, and the Chronicle cannot be held responsible for the opinions expressed.

Crossfield, Aug. 23, 1939  
Editor Crossfield Chronicle

Sir: In your August 17 issue I notice a report of the Social Credit meeting held at Mountain View Hall. In answering a question by the Premier, Mr. King, M.L.A., is quoted as saying "We're not getting the co-operation from the people that we expected." This is in

connection with the Treasury Agency. When asked by the Premier how the Cochrane constituency had progressed in this way, Mr. King replied that we had not made as much progress as we would like—and that is correct, we haven't.

This interim programme centres on a scheme to boost the sale of Alberta-made goods

We believe that it is the duty of Alberta citizens to support Alberta industries and thereby give employment to Alberta workers. It naturally follows that we believe that citizens of a community should support their

own community to the fullest possible extent and thereby help the part of Alberta that they should be most interested in

It is in this respect that we have not made as much progress as we would like. The habit of sending their purchasing power away from their own community has become so strong through the depression years, in order to get all they possibly could for their money, and blinded the people to the fact that while they may gain a few cents individually they lose many dollars collectively.

This is not an idea of the Social Credit organizations alone other organizations have preached this for years. The only difference being that we are trying to do something about it, where others didn't. The strange thing about it all is that those who preached this very thing are the ones who give the least co-operation. Mr. King did not mean that the agencies in operation, because they have really got more co-operation than we expected, but the principle of the scheme has not been carried as far as we would have liked.

Thank you.

There appears to be a number of people who are greatly upset over the raise in their school tax. Since the large Unit, that have been operating for some time have been able to show substantial saving the complaint seemed to be quite justified. The following letter was received in answer to a request for information and may supply the information that others seek:

Edmonton, Aug. 18-39

Dear Mr. Butler: I have now the information which you requested with reference to the levies in the Municipal Districts in the Olds Division. The following paragraph is an excerpt from a letter from the Divisional Office:

"Although our Board requisitioned an amount within a few hundred dollars of what was spent by the school districts in the previous year, the tax levies for school purposes

in the four principal municipal districts in the Divisions have been increased as shown below:  
Munic'l District 1938 Levy 1939 Levy  
Westerdale \$18,787.41 \$23,102.85  
Mtn. View 25,016.35 30,341.30  
Rosebud 18,409.65 31,691.81  
Beaver Dam 11,724.70 15,934.85  
\$73,918.11 \$101,070.81

Very sincerely yours  
G. Fred McNally  
Deputy Minister  
GEO. BUTLER

### THE CANADIAN WHEAT BOARD

In this issue, we are printing an advertisement of the Canadian Wheat Board repeating the 5,000 bushel limit on deliveries to the Board. Every farmer and land-owner should read these instructions carefully so that all risks of offending the Act will be avoided.

It will be noted that every person who sells wheat to the

Board in excess of 5,000 bushels and in breach of the regulations set out in the advertisement is guilty of an offence and punishable on summary conviction by fine or imprisonment. It is the earnest hope of the Wheat Board that wide publication and understanding of these regulations will prevent any infringement of the law and that all producers will co-operate to this end. The Board will have inspectors checking deliveries at the elevators and farms to assist in administration of the Act.

Any farmer or other person entitled under the Act to wheat grown on a farm who is in doubt regarding his position is invited to write to the Board submitting full details regarding his case.

Business goes where it is invited and stays where it is made welcome.

## CROSSFIELD CHRONICLE

# Line Elevators Do More Than Handle Your Grain

Line Elevators are continually guarding the interests of their farmer customers.

The Public Relations Department of the North West Grain Dealers' Association under the direction of Mr. L. W. Brockington, K. C., follows closely the actions and proceedings of all Governments and commissions which may be dealing with matters relating to grain. Every effort is made before these bodies to protect and promote the interests of our farmer customers.

## Some of the constructive work undertaken by Line Elevators in recent months follows:

Took an active part in the work of the Bracken Committee in urging upon the Dominion Government the continuation of the Canadian Wheat Board and 80 cent wheat.

Urged the Dominion Government to establish a Western Research Laboratory of the National Research Council. This laboratory would seek new uses and expanded markets for wheat and other farm products. This proposal was put forward following a survey which we made of the progress in research into new uses for farm products in the United States.

Financed seed and crop improvement work.

Financed research extending over a period of several years into weed control and eradication.

You ask, "Why does my local Line Elevator do these things?"

We reply: Only through a prosperous and happy agricultural community can we prosper. Our interests are identical despite what is said by propagandists.

**Line Elevators Association**

Our material financial support makes possible the tour of the Canadian Forestry Association's Tree Planting Car throughout the Prairie Provinces.

Continually advocating free international exchange of goods in order to regain and expand Canada's exports of wheat.

Continually endeavoring to impress on Governments and public bodies the disparity between the basic price at which the farmer sells his products compared with the price he pays for manufactured farm requirements which he must buy.

Proposed that Co-operative associations, as members should accept representation on the governing body of the Winnipeg Grain Exchange and urged appointment of a supervisor for the Grain Exchange.

## CFAC Takes in Circus

The other night the whole staff of CFAC went down to Victoria Park to see the Circus. A good time was had by all.

Using the best reporter technique, yours truly asked the different members of the staff how they liked it. The answers were...varied. However, they all added up to the same thing...everyone had a marvelous time. Naturally, different things or acts appealed to different people...so we shall quote a few of the members of the CFAC staff:

**Manager Gordon Henry** "It was a very fine show. Those two boys of mine thoroughly enjoyed it from start to finish."

**Margaret Darroch** "It was grand! The girls with the flowing white robes and the wings were awfully graceful both on the track and on their whirling ladders."

**Mayette Robson** "Of course, the whole thing was tops, but the thing I liked best was the dancing horse. Yo-ho."

**Fred Shaw** "What's all this about the MAN on the flying trapeze? Did you see that girl do the 'two-and-a-half' spin?

**Jack Gordon** "The music could have been better if they had used ???? type of amplifier with their Public Address system." (You must remember that Jack is a member of the engineering staff.)

Probably the prize quote of all goes to **Secretary Margaret McQuillin**. "The peanuts were awfully good, though I kind of made a pig of myself. I ate nearly two bags. The pop needed more orange flavouring. As a matter of fact I had such a time getting the paper off my chocolate-coated ice cream, I didn't have much time to see the circus. I did notice that they had elephants....and aren't they BIG!"

Anyway, everyone was agreed that it was a grand show, and all of us had a 'swell' time!

**Local and General**

Mr. and Mrs. L. Overby were Calgary visitors Monday.

Rev. and Mrs. J. H. Pickford visited at Banff during the weekend.

Miss Lauretta Fike spent the past week at the A. J. Rach farm, Madden.

A doctor says tripe is good for the health. Boy, newspaper reporters must be healthy!

A man who refuses to co-operate is about as useless to his industry as a glass eye in a key-hole.

A lady accidentally stepped on our foot a few days ago. Luckily she picked on the half section that was paralyzed.

W. W. Stafford has purchased a Case combine and outfit from the local agent, A. W. Gordon.

R. T. Amery purchased three new binders from W. Laut this week. Delivery was made on Monday.

We hear Clarence Stafford was around the local stores soliciting orders for eggs. He has decided to go into the chicken business.

Mr. and Mrs. E. D. High, of Kitchener, Ontario, arrived at the Alfred High home on Monday. They will visit friends and relatives in the district during the harvest season.

It's an ill wind that doesn't blow somebody some good. Through such a breeze last evening we swallowed the fumes from a bakery—the biggest feed we have had for a long while.

A local lady was entertaining her young friend's small son. "Are you sure you can cut your meat, Johnny?" she asked, after watching his struggles. "Oh, yes," he replied without looking up from his plate. "We often have it as tough as this at home."

The Village Council has decided to give a ten percent discount on village taxes paid on or before October 1st, as very few towns and villages give this maximum discount, we would advise all taxpayers to take advantage of this liberal discount.

The local building trade received a big boost this week. C. C. Stafford decided to spend a few minutes each day attending to a few chickens and Bob McCaskill received the job of erecting an eight by ten chicken house at the rear of the Stafford residence.

**THE CANADIAN WHEAT BOARD**

5,000 Bushel Limit on Deliveries of 1939 Wheat

**REGULATIONS**

1. No person shall sell to the Board wheat which was not grown on the farm or farms which such person owns or operates, or to the product of which such person is otherwise entitled.

2. Every person who sells wheat to the Board in breach of the foregoing regulation shall be guilty of an offence and punishable on summary conviction by a fine not exceeding one hundred dollars or by imprisonment for a period not exceeding one month.

**PROVISIONS FOR ESTABLISHING THE SYSTEM OF DEALING IN WHEAT UNDER THE CANADIAN WHEAT BOARD ACT FOR THE CROP YEAR 1939-40, MORE PARTICULARLY WITH REFERENCE TO THE 5,000 BUSHEL LIMIT.****RULES AND INSTRUCTIONS**

The Canadian Wheat Board will buy 1939 wheat during the crop year 1939-40 on the following basis:

1. The sale of 5,000 bushels at the fixed price is the limit of benefit which any grower may derive from the Canadian Wheat Board. In addition to buying from the grower, the Board may of course buy wheat from landlords, vendors, mortgagees, or others entitled by contract or operation of law to wheat grown by someone else. If any person from whom the Board is entitled to buy wheat sells less than 5,000 bushels of wheat to the Board, wheat grown on the same farm or group of farms operated as a unit may be purchased by the Board from any other person from whom the Board is entitled to purchase wheat, but the Board will not buy more than 5,000 bushels of wheat grown on any one farm or group of farms operated as a unit. Subject to such limitation the Board may buy more than 5,000 bushels from a landlord, vendor, mortgagee or other person so entitled.

ILLUSTRATION A—The Board may purchase from each grower-producer not more than 5,000 bushels of wheat grown by him in the crop year.

ILLUSTRATION B—Where a grower-producer sells 5,000 bushels of wheat grown on one farm or group of farms operated as a unit, the Board will not buy from any landlord, vendor, mortgagee or other person entitled as aforesaid any further wheat produced on such farm or group of farms.

ILLUSTRATION C—Where there is a mortgage on the farm and the owner-grower sells to the Board 3,000 bushels of wheat grown on that farm, then the mortgagee can sell to the Board only 2,000 bushels of wheat grown on that farm.

ILLUSTRATION D—Where in such circumstances there is a landlord or a vendor, as well as a mortgagee, the total sales of the landlord or vendor and mortgagee can only be 2,000 bushels.

ILLUSTRATION E—Where a mortgagee receives 2,000 bushels of wheat grown on each of 10 farms, and in such case the owner-grower sells 3,000 bushels or less to the Board, the Board may buy the whole 20,000 bushels from such mortgagee.

ILLUSTRATION F—Where land is leased, the tenant-grower and the landlord will be treated in the same manner, respectively, as the owner-grower and mortgagee in the above illustrations.

ILLUSTRATION G—Employees and dependents are not grower-producers; and they cannot sell wheat to the Board themselves or through anybody else, unless a grower hires employees by a contract based on crop shares instead of money wages, in which case grower and employee respectively will be treated in the same manner as owner-grower and mortgagee in illustrations above.

ILLUSTRATION H—If two farmers actually farm in partnership and each is entitled to a share of the crop and neither is a dependent or employee of the other, each is a producer of his share of the crop and will be treated in the same manner as a grower-producer in illustrations above.

2. Difficult cases may arise in applying the 5,000 bushel limit on purchases of wheat in certain cases, such as where one man owns a number of farms which are operated by relatives or dependents, or where a number of persons operate farms under an arrangement such that the wheat they grow is sold by a community organization. In such cases the Board will have to exercise discretion in the light of the general principles illustrated above.

3. The expression "group of farms

operated as a unit" as herein used means a group of farms which are prepared, tilled, seeded, harvested and whose product is marketed, by the same equipment and the same help, used indiscriminately on the group of farms.

4. If its effect would be to increase the quantity of wheat which the Board might buy, no mortgage, lease, agreement, transfer or other document or transaction whatever, made or entered into after the first day of May, 1939, will be recognized, except where the circumstances in the opinion of the Board show that it was not designed for the purpose of so increasing the amount of wheat which the Board might buy, or where such mortgage, lease, agreement, transfer or other document or transaction is approved by the Board.

5. Each time anyone sells wheat to the Board he represents that such sale is within the limit above set out. (N.B.—Selling wheat to the Board in excess of such limit constitutes the offence of obtaining money by false pretences under the criminal law, and is an offence under the Canadian Wheat Board Act. Such offence is punishable by a heavy penalty and imprisonment.)

6. Every person who sells wheat to the Board which was not grown on the farm or farms which such person owns or operates, or to the product of which such person is otherwise entitled, shall be guilty of an offence and subject to a heavy penalty and imprisonment. (Such a sale would also constitute the crime of obtaining money by false pretences under the Criminal Code.)

7. All persons taking any part in sales of wheat to the Board in breach of the law are liable to prosecution.

Questions have been raised regarding the right of an owner-grower and mortgagee under item (c) in clause 1 of the Rules and Instructions above. This, of course, is merely an illustration like all the others and the amounts mentioned are by no means binding in individual cases.

Regarding priority between themselves, of grower, landlord, vendor, mortgagee and other persons entitled to wheat, the Board cannot concern itself with the rights of these various parties between themselves. They must make their own arrangements. No doubt in some instances at any rate the relationship will be governed by the terms of the lease, mortgage or other agreement between them.

Further enquiries should be directed to

**The World of Wheat.**

By H. G. L. Strange

The price of wheat, the records show, is today lower than it has been since the year 1855, when it was equivalent to about 26 cents a bushel at Liverpool.

The present low price is the direct result of the wheat surplus today existing in the world.

How much is the surplus? The whole world produces and consumes, each year, approximately 5,400 million bushels of wheat. The burdensome or unwanted surplus today, it is calculated, is not more than about 550 million bushels, or no more than sufficient to furnish the people of the wheat-eating world with about 87 days supply.

Surpluses equal to this per person in the world, have appeared in the past, and always people have been astonished to find how quickly the surpluses that many thought would endure for years, have disappeared. The reason that surpluses in the past have disappeared, and that this present surplus too may disappear more quickly, is that people think possibly, is that while the total amount in

**Line Elevators**

(continued from page one)

find new industrial uses for wheat and other farm products: financed seed and crop improvement work; financed weed control research; assisted in financing the tour of the Tree Planting car; sought a lessening of disparity in prices of products which the farmer sells compared with goods that he must buy, proposed that the co-operative associations as members should accept representation on the governing body of the Winnipeg Grain Exchange, and urged Government supervision of the Exchange; continually advocating free international exchange of goods in order to regain and expand wheat markets

All this is valuable work on behalf of agriculture, and the Line Elevator Companies are to be commended for the part that they are playing in seeking to make the Prairies a better place in which to live.

bushels seems large, yet actually it only fills the world's needs for a very few days. Any slight climatic catastrophe to crops in any large country, therefore, would soon make all these extra surplus bushels indispensable.

Once again this year severe losses have been suffered in Western Canada from grasshoppers.

During the course of the Ages locusts have probably destroyed as much of man's precious food-stuffs as either drought or rust have done.

The Bible teems with references to the destruction of crops and pastures by locusts. Exodus tells us that "Locusts will eat every herb of the land." Locusts have brought destruction from time immemorial in almost every country in the world. They were one of the most dreaded plagues of ancient Egypt, and there are records of great flights which swept across the whole of Europe and parts of Asia. One great swarm in 1859 which crossed the Red Sea was estimated to be 2,000 square miles in extent. Another great swarm was once observed over the sea a thousand miles from land. In the United States and Canada, during the time records have been kept, vast destruction to crops has occurred.

Whatever losses may be suffered by farmers this year, of one thing we can be sure, the losses have been greatly reduced by the splendid control methods designed by the professional entomologists of the United States and Canada.

**Our Village**

(continued from front page)  
The cement sidewalk on the south side of Hammond Street between Railway and Ross Streets and the extension of the cement walk on main street at the north end and the repairing in front of the Home Cafe, are a great improvement which many of the citizens will appreciate, especially in the winter months.

Then again the north end of the Village has not been overlooked as a sidewalk has been completed on the east side of Strathcona Street between Limit and Mountain Avenues, and the sidewalk on the west side of this same street has been repaired, so that the children going to school as well as the citizens living in that part of the Village will have a good sidewalk all the way from the business centre.

With regard to the streets, the Main Street was given another coat of gravel and other streets have been checked up and put in good condition for winter.

Through the enthusiasm of our newly organized Volunteer Fire Brigade we have made strides in this department. The Fire Chief and his Brigade insisted on the chemical engines being mounted on a truck. The Brigade got their way and they are to be complimented on what they have accomplished, although we would still like to see the Brigade out on Fire Drill.

In bringing to the citizens' attention the work of the Village Council during the past year, we have in our thoughts what consideration the Council will get from the citizens in the payment of their taxes for the expense incurred in carrying out these improvements. We shall all know what loyal citizens we have in our Village when the Financial Statement is published next January.

**SCHOOL FAIR**

(continued from page one)

Also speaking of the Prize Lists, don't forget the advertisers and show your appreciation, by patronizing them, as it is through their assistance this list has been made possible.

The members of the boys and girls Calf Club should also remember that their Show and Sale will be held on the same day, also the judging class. Generous prize money, amounting to over one-hundred dollars will be distributed amongst the competitors in this class, together with the silver cup, donated by Harvey K. Adams, Esq., to the boy or girl showing the best handled and finished baby beet.

**Local and General**

Mr. and Mrs. Fred Becker and Mr. and Mrs. John Becker were Calgary visitors Sunday.

Bob Cann was so busy on Monday he hadn't time to see whether it was a fine day or not.

Mesdames McAnnally and Mrs. Smythe spent Sunday at Innisfail and Lacombe.

Why are the houses at the north end at a standstill? Winter will soon be here.

Mrs. Hugh McFadyen was a business visitor to Carstairs one day last week.

Mrs. Jack Willox entertained a number of ladies to a birthday tea on Tuesday.

Miss Wilda Laut and her cousin, Miss D. Laut, of Calgary returned Saturday after spending a week at Sylvan Lake.

If you look through this column you will find the odd "Goozle" and joke. Laugh and grow fat.

Mr. and Mrs. R. D. Sutherland returned Wednesday, after spending a week's vacation at Banff.

Mr. and Mrs. R. M. McCool of Edmonton visited friends and relatives in town over the weekend.

T Chalmers visited the bright lights on Monday, where he partook of a dentist's profession.

Mr. and Mrs. W. J. Wood, Howard and Eddie and Mr. and Mrs. A. Heywood spent the weekend at Pigeon Lake.

Improvements are still continuing. The residence of Mr. and Mrs. D. H. McFadyen is being painted and the W.L. Shantz Pool Room and Barber Shop is being redecorated inside.

Mr. and Mrs. J. Hatten returned to Drumheller Sunday last, after spending a holiday at the home of Mrs. Hatten's parents, Mr. and Mrs. D. Ontkes.

Mrs. Laut returned to town on Sunday, after spending a
